## ABOUT ME

I'm passionate about learning, teaching, and growth. An empathetic communicator who loves fostering supportive and collaborative environments with those who share my excitement for problem-solving.

## EXPERIENCE

- **General Assembly - Developer | Instructor**  
September 2016 - Present
  - 1000+ hours instructing full-stack web development using best conventions, bleeding-edge tools, and best practices.
  - Troubleshoot 'developer' issues through guided discovery oriented debugging
- **General Assembly - Developer in Residence**  
March 2016 - June 2016 Full-Time
  - Develop, iterate and scaffold training materials to provide the fundamentals of programming and web development through hands on application of JavaScript, HTML, CSS, Ruby, Rails, Handlebars, SQL, Postgres, Node, Express, Ember, along with other languages and technologies
- **Restaurant Management**  
September 2011 - April 2016
  - Team management in craft beer bars, QSR startup, high-end restaurants, casual coffee bars.
  - Experience leading and motivating teams ranging from 5-45 team members.
  - Optimizing daily workflows and processes.

## EDUCATION
