ABOUT ME

I'm passionate about learning, teaching, and growth. An empathetic team-player who loves fostering supportive and collaborative environments with those who share my excitement for problem solving.

EXPERIENCE

- **General Assembly - Developer in Residence**

September 2016 - Present

- 1000+ hours instructing full-stack web development using best conventions, bleeding-edge tools, and best practices.

- **General Assembly - Web Development Immersive**

March 2016 - June 2016 Full-Time

- Implemented and deployed full-stack web apps with HTML/CSS, JavaScript, jQuery, Ruby, Ruby on Rails, EmberJS, Node.js, MongoDB and PostgreSQL
- Designed architecture and UX using wireframes and user stoies

- **Restaurant Management**

September 2011 - April 2016

- Team management in craft beer bars, QSR startup, high-end restaurants, casual coffee bars.
- Experience leading and motivating teams ranging from 5-45 team members.
- Optimizing daily workflows and processes.
