ABOUT ME

When I realized I could have a career that revolved around constantly learning new things and seeking creative solutions to challenging problems--I was officially hooked. I'm passionate about growing my skills, being ever-positive and working with people that share my enthusiasm for learning.

EXPERIENCE

General Assembly - Web Development Immersive

March 2016 - June 2016 Full-Time

- Implemented and deployed full-stack web apps with HTML/CSS, JavaScript, jQuery, Ruby, Ruby on Rails, EmberJS, Node.js, MongoDB and PostgreSQL
- Designed architecture and UX using wireframes and user stoies
- Collaborated with other developers using Git and Github

Restaurant Management

September 2011 - April 2016

- Team management in craft beer bars, QSR startup, high-end restaurants, casual coffee bars
- Experience leading and motivating teams ranging from 5-35 individuals
- Designing and implementing optimal pathing and workflows in diverse work environments.
